

## **Resolution**

### **Recommendations for the Provincial Facilitator**

Whereas findings presented by the Kemptville College Task Force demonstrate the need for a post-secondary educational institution to provide renewed programs and services currently delivered by the University of Guelph, it is therefore moved by Marty Derks, co-chair of the Task Force, seconded by Chris McDonell, Mayor of North Glengarry and approved unanimously by the constituency present at the Town Hall Meeting that:

- That a Stakeholder Advisory Panel of leading business and community members is established to advise on a transformative model for Kemptville College to deliver research and education programs that are focused on high growth/high demand segments in agriculture, agri-food, equine, horticulture and associated trades.
- That the renewed Kemptville College is founded on strategic partnerships that will leverage the strengths and capabilities of each organization.
- The Province of Ontario support the request of the Municipality of North Grenville to administer Kemptville College on an interim basis during the period of transformative change.

Passed at Kemptville, Ontario, this 16<sup>th</sup> day of July 2014.
